Subject Index to Volume 7

Acinetobacter spp., RO23–6240 vs., 9, 29
Acinetobacter anitratus, RO23–6240 vs., 29
Acquired immunodeficiency syndrome (AIDS), cryptococcal infections in, 249
Acyclovir, progressive herpes simplex infection resistant to, 199
Aeromonas spp., RO23–6240 vs., 29
Aeromonas hydrophila
  hematologic malignancy and, 63
  RO23–6240 vs., 9
AIDS. *See* Acquired immunodeficiency syndrome (AIDS).
Aminoglycoside resistance
  among β-lactam resistant *Escherichia coli*, 45
  in *Pseudomonas aeruginosa*, 107
Ampicillin, deptomycin vs., 283
Anaerobes, RapID-ANA and Minitek in identification of, 69
Antibiotic susceptibility testing
  antipseudomonal, 107
  cephalosporins vs. penicillin-resistant *Streptococcus pneumoniae*, 21
  coumermycin, 77
  deptomycin, 283
  microdilution quality control, 83
  RO23–6240, 9, 29
Antipseudomonal agents, 107
Azlocillin, ciprofloxacin with, vs. streptococcal infections in neutropenia, 127
Aztreonam, quality control of microdilulation tests with, 83

Bacteremia
  Lactobacillus GC and, 1
  Neisseria cinerea, 143
  Serratia, 237
Bacteriuria, *Klebsiella pneumoniae*, 229
Bacteroides fragilis
  cefotoxin-resistant, 119
  RNA probes for, 273
Biotype determination, *Haemophilus influenzae* and *H. parainfluenzae*, 269
Blastomycosis, ELISA for, 37
Brain abscess, *Haemophilus paraphrophilus*, 205
Branhamella catarrhalis, RO23–6240 vs., 29
Broth-disk elution test, for screening methicillin-resistant staphylococci, 279

California, rotavirus gastroenteritis in, 59
CAMP factor, Group B streptococci identification and, 225
Catheter-related infection
  Klebsiella pneumoniae, 229
  Malassezia furfur, 161
Cefamandole, deptomycin vs., 283
Cefonicid, quality control of microdilution tests with, 83
Cefotaxime, single-dose ticarcillin/clavulanic acid vs., in surgical prophylaxis, 219
Cefoxitin, *Bacteroides fragilis* resistant to, 119
Ceftazidime, quality control of microdilution tests with, 83
Ceftizoxime, quality control of microdilution tests with, 83
Ceftriaxone, quality control of microdilution tests with, 83
Cefuroxime, quality control of microdilution tests with, 83
Cephalosporins
  deptomycin vs., 283
  vs. penicillin-resistant *Streptococcus pneumoniae*, 21
  vs. *Pseudomonas aeruginosa*, 107
Cerebrospinal fluid
  Cryptococcus neoformans in, 249
  Limulus amebocyte lysate test of, 177
Cesarian section, *Mycoplasma hominis* wound infection after, 193
Chloroquine-resistant falciparum malaria, in Equatorial Guinea, 51
Ciprofloxacin
  azlocillin with, vs. streptococcal infections in neutropenia, 127
  – RO23–6240 comparison, 9, 29
  vs. *Mycobacterium avium-intracellulare* complex, 89
Citrobacter amalonaticus, quinolones vs., 29
Citrobacter diversus, RO23–6240 vs., 9, 29
Citrobacter freundii, RO23–6240 vs., 9, 29
Comparative dot ELISA, for blastomycosis, 37
Continuous ambulatory peritoneal dialysis, dialysate processing in, 155
Coumermycin, disk diffusion susceptibility testing of, 77
Cryptococcus neoformans, in AIDS, 249
Cytomegalovirus infection, neonatal, IgM test for, 211

9-Deazainosine, vs. *Pneumocystis carinii* pneumonia, 113
Deptomycin, vs. gram-positive cocci, 283
Dialysate processing, in suspected continuous ambulatory peritoneal dialysis peritonitis, 155
Diarrhea, multiple pathogens in, 255
Disk diffusion tests
  of coumermycin, 77
  of RO23-6240, 29

Elderly, *Mycobacterium bovis* infection in, 149
ELISA. *See* Enzyme-linked immunosorbent assay (ELISA).
Enoxacin-RO23–6240 comparison, 29

Enterobacter aerogenes, RO23–6240 vs., 9, 29
Enteritis. See Gastroenteritis.
Enterobacter agglomerans, RO23–6240 vs., 29
Enterobacter cloacae, RO23–6240 vs., 9, 29
Enterobacter sakazakii, RO23–6240 vs., 29
Enterococcus spp., deptomycin vs., 283
Enterococcus faecalis, RO23–6240 vs., 29
Enterococcus faecium, RO23–6240 vs., 29
Enzyme-linked immunosorbent assay (ELISA)
  comparative dot, for blastomycosis, 37
  FAST. See FAST-ELISA.
  for orbivirus detection, 55
  for pneumococcal C-polysaccharide, 73
Epidemiology
  of *Malassezia furfur* infection, 161
  of schistosomiasis, 93
Erythromycin-deptomycin comparison, 283
Escherichia coli
  aminoglycoside resistance in, 45
  RO23–6240 vs., 9, 29

Falciparum malaria, chloroquine-resistant, in Equatorial Guinea, 51
FAST-ELISA, in schistosomiasis, 93
Fungal infections, ELISA for, 37
Fusidic acid-coumermycin comparison, 77

Gardnerella vaginalis, RO23–6240 vs., 9
Gastroenteritis
  Hymenolepis diminuta, 255
  rotavirus, in California, 59

Haemophilus influenzae
  biotype determination of, 269
  RO23–6240 vs., 9, 29
Haemophilus parainfluenzae, biotype determination and new biotype of, 269
Haemophilus paraphrophilus, brain abscess from, 205
Hafnia alvei, RO23–6240 vs., 29
Herpes simplex infection, progressive acyclovir-resistant, 199
HIV. See Human Immunodeficiency virus (HIV).
Hodgkin's disease, *Mycobacterium gordonae* pneumonia in, 000
Human immunodeficiency virus (HIV), reverse transcriptase assay vs. Retro-Tek viral capture assay for detection of, 185
Hymenolepis diminuta enteritis, 255

IGM test, cytomegalovirus-specific, 211
Imipenem
  quality control of microdilution tests with, 83
  –RO23–6240 comparison, 9
Immunocompromised host
  acyclovir-resistant progressive herpes simplex infection in, 199
  Mycobacterium gordonae pneumonia in, 261
Immunofluorescence studies
  IgM, for cytomegalovirus detection, 211
  in respiratory syncytial virus detection, 137
Immunoperoxidase staining, for rapid detection of influenza virus, 265
Infant
  IgM test for cytomegalovirus infection in, 211
  Malassezia furfur infection in, 161
Influenza virus, immunoperoxidase detection of, 265
Irradiation, lethal mouse, *Lactobacillus* GC and, 1

Klebsiella oxytoca, RO23–6240 vs., 9, 29
Klebsiella pneumoniae
  RO23–6240 vs., 9, 29
  spinal cord injury patients and, 229

Lactobacillus GC, lethal irradiation of mice and, 1
Limulus amebocyte lysate test, in meningitis, 177
Listeria monocytogenes, RO23–6240 vs., 29
LY-146032. See Deptomycin.

Malaria, falciparum. See Falciparum malaria.
Malassezia furfur, systemic infection with, 161
Malignancy, hematologic, *Aeromonas hydrophila* infection and, 63
Meningitis
  cryptococcal, in AIDS, 249
  Limulus amebocyte lysate test in, 177
Methicillin-resistant staphylococci, broth-disk elution test for screening of, 279
Microdilution susceptibility tests, quality control with new β-lactams, 83
Minimum inhibitory concentrations (MICs)
  aminoglycoside-resistant *Escherichia coli* and, 45
  antipseudomonal agents, 107
  ciprofloxacin, 89, 127
  coumermycin, 77
  deptomycin, 283
  β-lactams for pneumococci, 21
  microdilution quality control and, 83
  ofloxacin, 89
  RO23–6240, 9, 29
Minitek, and RapID-ANA, in anaerobe identification, 69
Monoclonal antibodies
  in rapid detection of influenza virus, 265
  in respiratory syncytial virus detection, 137
Morganella morganii, RO23–6240 vs., 9, 29
Mouse, *Lactobacillus* GC and lethal irradiation in, 1
Mucocutaneous herpes simplex infection, acyclovir-resistant, 199
Mycobacterium avium-intracellulare complex, ciprofloxacin and ofloxacin vs., 89
Mycobacterium bovis, disseminated infection with, 149
Mycobacterium gordonae pneumonia, in immunocompromised patient, 261
Mycoplasma hominis, postcesarean wound infection from, 193

Neisseria cinerea bacteremia, 143
Neisseria gonorrhoeae, RO23–6240 vs., 9, 29
Neisseria meningitidis, RO23–6240 vs., 29
Neutropenia
  Aeromonas hydrophila infection and, 63
  ciprofloxacin plus azlocillin vs. infection in, 127

Norfloxacin-RO23–6240 comparison, 9, 29

Ofloxacin, vs. *Mycobacterium avium-intracellulare* complex, 89
Orbivirus antigens, improved ELISA for detection of, 55

Penicillins, vs. *Pseudomonas aeruginosa*, 107
Peritonitis, dialysis processing in, 155
Pigment production, Group B streptococci and, 225
Pneumocystis carinii pneumonia, 9-deazainosine vs., 113
Pneumonia
  Mycobacterium gordonae, 261
  pneumococcal, ELISA for, 73
Pneumocystis carinii, 9-deazainosine vs., 113
Postpartum fever, *Mycoplasma hominis*, 193
Proteus mirabilis, RO23–6240 vs., 9, 29
Proteus vulgaris, RO23–6240 vs., 9, 29
Providencia rettgeri, RO23–6240 vs., 9, 29
Providencia stuartii, RO23–6240 vs., 9, 29
Pseudomonas spp., RO23–6240 vs., 29
Pseudomonas aeruginosa
  old and new agents vs., 107
  RO23–6240 vs., 9, 29
Pseudomonas cepacia, RO23–6240 vs., 29
Pseudomonas fluorescens, RO23–6240 vs., 29
Pseudomonas maltophilia, RO23–6240 vs., 29
Pseudomonas putida, RO23–6240 vs., 29
Pseudomonas stutzeri, RO23–6240 vs., 29

Quality control limits, for microdilution tests with new β-lactams, 83
Quinolones
  increased inoculum size and, 9
  RO23–6240 and, 9, 29
  vs. *Mycobacterium avium-intracellulare* complex, 89

Radiation. *See* Irradiation.
RapID-ANA, and Minitek, in anaerobe identification, 69
Rat, 9-deazainosine vs. *Pneumocystis carinii* pneumonia in, 113
Respiratory syncytial virus, monoclonal antibody detection of, 137
Retro-Tek viral capture assay, vs. reverse transcriptase assay for HIV detection, 185
Reverse transcriptase assay, vs. Retro-Tek assay for HIV detection, 185
Ribonucleic acid probe, for *Bacteroides fragilis*, 273
RO23–6240
  disk diffusion criteria, 29
  -imipenem and other oral agents comparison, 9
Rotavirus infections, in Southern California, 59

Salmonella spp., RO23–6240 vs., 9, 29
Schistosomiasis, serodiagnosis and seroepidemiology of, 93
Serodiagnosis, of schistosomiasis, 93
Serratia spp.
  bacteremia due to, 237
  RO23–6240 vs., 29
Serratia marcescens, RO23–6240 vs., 9, 29
Shigella spp., RO23–6240 vs., 9
Spinal cord injury, *Klebsiella pneumoniae* colonization in patients with, 229
Sputum, ELISA detection of pneumococcal C-polysaccharide in, 73
Staphylococci, coagulase negative
  broth-disk elution test for screening of, 279
  deptomycin vs., 283
  RO23–6240 vs., 9, 29
Staphylococcus spp., coumermycin vs., 77
Staphylococcus aureus
  deptomycin vs., 283
  methicillin-resistant, broth-disk elution test for screening of, 279
  RO23–6240 vs., 9, 29
Staphylococcus epidermidis, RO23–6240 vs., 9
Strep-A-Chek, for Group A β-hemolytic streptococci and Group D enterococci identification, 215
Streptococcus spp.
  ciprofloxacin plus azlocillin vs., in neutropenia, 127
  coumermycin vs., 77
  deptomycin vs., 283
  Group B
  CAMP and pigment production in identification of, 225
  Strep-A-Chek identification of, 215
Streptococcus agalactiae, RO23–6240 vs., 9, 29
Streptococcus faecalis, RO23–6240 vs., 9
Streptococcus pneumoniae
  cephalosporins vs., 21
  ELISA for, 73
  RO23–6240 vs., 9, 29
Streptococcus pyogenes, RO23–6240 vs., 9, 29
Streptococcus viridans, RO23–6240 vs., 9
Surgical prophylaxis, single-dose ticarcillin/clavulanic acid vs. cefotaxime in, 219

Teicoplanin-deptomycin comparison, 283
Tetracycline-deptomycin comparison, 283
Ticarcillin/clavulanic acid, single dose, in surgical prophylaxis, 219
Tuberculosis, in elderly, 149

Vancomycin
  -coumermycin comparison, 77
  -deptomycin comparison, 283
Viral capture assay, vs. reverse transcriptase assay for HIV detection, 185

Wound infection, postcesarean *Mycoplasma hominis*, 193
